

# Salt Lake City, UT Data Center Campus SLC-01

3333 West 9000 South  
West Jordan, UT 84088  
+1.833.425.4463

3333 W 9000 S

## Overview

Thanks to Utah's new sales tax legislation, Salt Lake City is now one of the best TCO markets in the nation. Classified as a cold desert, Utah's low humidity levels make it ideal for ambient cooling. The state also enjoys some of the cheapest electricity and natural gas rates in the nation; renewable energy sources, such as solar and wind, are rapidly growing. Known as Silicon Slopes, the area is a growing technology center. Utah also touts some of the lowest occurrences of natural and man-made disasters in the U.S. It has the fastest Internet speeds in the Intermountain West and among the fastest in the nation. Added alternative energy incentives make Salt Lake City a desirable colocation market, and Aligned's hyperscale data center campus the location of choice.

## Building Specifications

- Renovated in 2018
- Campus is 55 acres
- Private, dedicated data center suites
- Concrete slab-on-grade and structured steel
- ASCE 7 occupancy category IV
- Wind importance factor of 1.15
- Bays with delivery platform and equipment trap
- Dedicated office space for rent
- Shared conference rooms and drop-in office pods
- 24x7x365 accessibility
- Industry-leading PUE

## Building Specifications

### NETWORK

- Two diverse points of entry, per build
- Carrier-neutral
  - On-net Carriers
    - Cogent
    - Comcast
    - FirstDigital Telecom
    - Lumen
    - PacketFabric
    - Verizon
    - Zayo
  - Near-net Carriers
    - Comcast
- Four diverse meet-me rooms

### POWER

- Diverse and dedicated substations
- N+1 power generation
- Redundant A+B distribution
- Revenue-grade metering
- Up to 50 kW per rack

### SECURITY

- Impasse steel security fencing with laser intrusion detection
- Five-layer security design; motorized gates
- Card reader access
- 24x7x365 on-site security guards
- Multiple checkpoints: mantraps, dual authentication (biometrics)

### CORPORATE SUSTAINABILITY

- Cooling technology leveraging less water and less power than traditional systems
- 100% of Aligned's power is renewable
- Industry-leading PUE, WUE and CUE

### FIRE PROTECTION

- Separately zoned data halls
- Very Early Smoke Detection Apparatus (VESDA)
- Dual interlock pre-action system

### COOLING

- Our hot aisle containment strategy absorbs heat at its source—supporting standard and high power densities and allowing you to scale vertically and horizontally—without stranding capacity
- Configurable to client needs (i.e., N, N+1, 2N)

### COMPLIANCE

- System and Organization Control (SOC) 2 Type 2 and SOC 1 Type 2, PCI DSS, HIPAA, HITECH, NIST 800-53, ISO 27001:2013, and Uptime Institute M&O certified

### ABOUT ALIGNED

Aligned is an infrastructure technology company that offers adaptable colocation and build-to-scale solutions to cloud, enterprise, and managed service providers. Our intelligent infrastructure allows densification and vertical growth within the same footprint, enabling customers to scale up without disruption, all while maintaining industry-leading Power Usage Effectiveness (PUE). By reducing the energy, water and space needed to operate, our data center solutions, combined with our patented cooling technology, offer businesses a competitive advantage by improving sustainability, reliability and their bottom line.
